In 2000, beginning with five families, Casey Baynes founded the Casey Cares Foundation. Generous supporters have helped us grow to provide activities to over 38,000 program participants. The Casey Cares Foundation, a 501(c)3 organization, has a direct impact on critically ill children by customizing uplifting and gratifying recreational activities with a special touch. Casey Cares eases the burden of caring for a critically ill child for the entire family.

These are not once-in-a-lifetime activities, or even once a year. Casey Cares provides bi-monthly support to each family in our programs. Casey Cares provides bi-monthly support, not just once a lifetime or once a year but many times each year during a child's illness and even one year beyond remission.

Families whose faith, relationships, and pocket-books have been stretched to their breaking points by the diagnosis and treatment of their critically ill child receive this ongoing support. We are accepting more applicants each week, and continue to maintain the high quality programs that our families have come to expect and we take such pride in providing. As our enrollment grows and the economic turbulence continues, our families and our foundation are relying on additional support.

For many of our families, these programs with a special touch, provided by the Casey Cares Foundation, will be the only break they have from hospital stays and doctors' visits. For some, it will be one of the last events they will attend with all members of their family present.

While we cannot cure these children, with your help we can certainly help create memories to last a lifetime.
